Electronic Muscle Stimulator with Pads

MAIN FUNCTIONS:

Best-Selling Transcutaneous Electrical Nerve Stimulation (TENS) unit

Features 24 different modes and 20 different intensity levels from 2 included electrodes

Built-In timer can be set anywhere between 10-60 minute intervals

Rechargeable Lithium Battery for convenient and portable usage

Constructed of ABS Plastic and Stainless Steel

LED Display shows different modes, intensity levels, and timer for ease of use

Package includes: (1) TENS device, (1) Manual, (6) Electrode Pads, (2) Electrode Cables and (1) Acupoint Map

Mini Electronic Personal Massager/ Abs Stimulator

MAIN FUNCTIONS:

Miniature Electronic Muscle Stimulation (EMS) Personal Massage and Abdominal Stimulator

Unit doubles as both a personal wellness item and as exercise equipment

Features 6 different modes and 20 different intensity levels for advanced customization

20-minute default timer can be adjusted to anywhere between 10-60 minutes

Operated by wireless four-button remote controller

Unit can operate continuously for 4-6 hours when fully charged

Rechargeable lithium battery

Package includes: (1) Massage Device, (2) Large Electrode Pads, (2) Small Electrode Pads, (2) Electrode Cables, (1) USB Cable, (1) Adapter, (1) Acupoint Chart

TENS Massaging Neck Band w/ Electrode Pads

MAIN FUNCTIONS:

Transcutaneous Electrical Nerve Stimulation (TENS) Neck Massager with Electrode Pads

Neck Band sends electrical pulse 0.5 to 2 inches below the skin to relieve muscle pain in high stress areas, specifically on the back of the neck

Unit also doubles as a massager with 6 different modes and 16 different intensity levels

One output for two electrode pads allows user to stimulate other muscles while using the neck unit

Included in the package: (1) Neck Massaging Unit, (2) Electrode Pads, (1) Electrode Wire

IPX7 Waterproof Electronic Massaging Foam Roller

MAIN FUNCTIONS:

Electronic Foam Roller with
Massaging Function

Unit combines traditional
foam rolling with a strong
massaging vibration to offer
the ultimate tool for stress,
muscle relief, pre-/post-
exercise performance, and
high-level athletes

Unit features four different
modes with different
vibrating speeds ranging
from 2000-6000 RPM

Constructed of durable ABS
and Silicone 100% harmless
to skin

At max speed, unit can
function for up to 1.5
continuous hours of
operation

Unit is completely waterproof
making it versatile for a
variety of functions and
environments
